

55mm Track Bracket Spacer Data Sheet

55mm Track Bracket Spacer Dimensions (mm/inches)					
Dimensions (Ref to drawing)	2mm Spacer	4.5mm Spacer	9mm Spacer	12mm Spacer	20mm Spacer
A	55mm (2.16")	55mm (2.16")	55mm (2.16")	55mm (2.16")	55mm (2.16")
B	76.2mm (3")	76.2mm (3")	76.2mm (3")	76.2mm (3")	76.2mm (3")
C	2mm (0.08")	4.5mm (0.18")	9mm (0.35")	12mm (0.47")	20mm (0.79")

- When installing a track system against a slanted ceiling, follow these steps: Use a laser to identify the lowest track bracket. Lower all other brackets to align horizontally with the lowest one. Place track bracket spacers between the ceiling and the brackets as needed. Verify alignment using the laser. This process ensures that all track brackets are horizontally aligned.
- To be used in any combination to achieve a horizontal install.
- Only compatible with 55mm track brackets.
- Track spacers should only be required if the ceiling/joist are not level.
