

Constant Charge Strip Data Sheet

Constant Charge Strip Dimensions (mm/inches)	
Dimensions (Ref to drawing)	Constant Charge Strip (700100)
A	49mm (1.9")
B	5.25mm (0.2")
C	5000mm (196.85")
D	225mm (8.85") Repeat
E	ø3mm (0.12")

- Track systems which require constant charge will require the strips to be fitted to the track prior to installing the track onto the ceiling.
- Standard track required 22 screws per 5m length of track.
- Middle track requires 4 screw per 5m length of track.
- Heavy duty track requires 4 screws per 5m length of track.
- Supplied in 5m strips.
- Strips are to be cut to length to suit the install (we recommend using a chop saw with fine tooth steel blade to cut).
